# Welcome. More beautiful in no time!

## Just imagine

You can make your home even more beautiful, for less than you would expect.

## How? It's simple.

Our wide selection of ready-to-fit stylish doors are the answer to all your style questions. How about replacing your existing flat, standard doors with one of the stylish doors presented on the following pages? And, as specialists in white varnished doors, we make sure your renewed style lasts, by offering an unmissable extra: our hardy and solvent-free Superlak. See for yourself.

# Inspiration. Inclusive.

Including new products,  
for even more possibilities.

Welcome to the catalogue of endless possibilities.  
With two additional door collections, we have once  
again increased the possibilities presented by our  
door assortment.

In the ELEGANT style, **Classic** is a collection for people who  
love classic stylish doors, and in the DESIGN style, the new  
**Living** collection provides the perfect entrance into the world  
of design. Both of course come in hardy white varnish which,  
in addition to providing inspiration, also ensures a safe  
investment.

Another plus for inspiration:  
Collection Plus.

It is not just the new collections that offer you additional  
options: combining them with Collection Plus opens up even  
more possibilities, inspiring you to achieve a greater degree of  
individuality. For example: with individual linear grooves, you  
can choose between White and Extra white or a glass  
beading if preferred, or all of the above. Indulge yourself.

Live as you like.  
**We have doors**  
to make wishes come true.

Because life  
is so colourful.  
**White lacquered  
doors.**

### Your door is our delight.

At Svedex, we are passionate about getting to work, all of which is completed inside our own organisation. It begins with product development, continues with innovative production processes and doesn't stop at quality assurance. This allows us to respond rapidly to trends, constantly optimise our quality and meet tailored customer requirements quickly. Everything to comfortably create you the home you want.

### Experience Svedex at specialist outlets.

Another important thing is that you should be able to experience the effect of a Svedex style door from up close before you decide. How does the design work in daylight? How does the door feel to the touch? Our doors are available only from specialist retailers; you will find them in the display areas where you can literally have a close encounter with our doors.

Your home is your world. It's where you live out your style, your taste. Because we know that many home interiors are packed with unfulfilled wishes, we at Svedex have looked closely, listened carefully and developed a wide range of style doors - TREND, ELEGANT and DESIGN - to match every taste, every trend and every style. Which means you're not choosing a door, you're choosing a piece of furniture that will increase your enjoyment of your home even more - perfectly in line with your taste.

>> More about Svedex: [www.svedex.com](http://www.svedex.com)

Our name symbolises an  
**exceptional finish.**  
And it lends every door a certain something.

A finish for life

We love the variety and innovation of door design but we never compromise on the finish. For 40 years, our Superlak has been proving that superficiality is in a certain sense important. This completely solvent-free and exceedingly resistant finish ensures that our doors are exceptionally enduring, are manufactured in an environmentally-friendly way, and that we can therefore guarantee a high level of satisfaction among our customers. Superlak and our high standard of quality have made us one of leading manufacturers of white varnished doors.

### Think beyond - especially to tomorrow.

To ensure that our customers are satisfied tomorrow as well, we do not simply offer them doors, but products with a future: doors, frames, door sets and fittings from a single source, all mutually compatible and available for the long-term, so you can switch your door, the architrave or the accessories at any time. And we want you to be able to buy from us with a clear conscience, which is why during manufacture, we are concerned with the environment, our resources and our energy consumption, and we are constantly optimising our processes. And ultimately, we want you to live healthily (100% solvent-free finish).

### The seal of responsibility.

As a customer, you can trust in the fact that, as an FSC®- and PEFC-certified company, we obtain our raw materials only from forestry companies that uphold sustainable cultivation.

### Hard facts: Our Superlak.

In solid use for almost 40 years:

- Exceptionally resistant
- Long-lasting UV-resistance
- Shock-proof and scratch-resistant
- Washable and easy to care for
- 100% solvent-free (0% emissions during production)

A beautiful frame to complete the picture.  
With plenty of options.

TWIN

Deluxe (70 mm)

Profile (65 mm)

Basic RE (MDF)

Basic RR (MDF)

It's just like a picture: the effect is always different depending on the frame. And so it is with Svedex doors, too. You have the option to choose from various architrave designs and thus individually define the frame conditions for the visual effect.

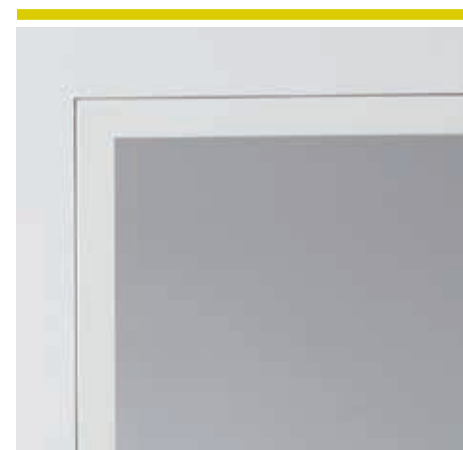

Fine finishes

A door doesn't work on its own, or look right all by itself. As always, it all depends on how it's framed, and these we have created with a broad selection of architrave designs. They match each style of door and are available in a range of different facings. Come see the available options for yourself - either on this page or, better yet, on display at our specialist trade partners.

TWIN

### TWIN - double joy for purists.

technically speaking, this frame is an architrave with a 2-leaf system and a special substructure. Visually speaking, its flush construction makes it the perfect frame solution for non-rebated doors - and the only one. So it's a double joy for purists: door and frame in happy, straight-lined harmony without lots of corners and edges.

# Svedex introduces - New door collections, a new look.

As you know at Svedex, a door is more than simply what connects two rooms together. It is part of the interior and likes to be eye-catching. With two new door collections, we are now offering you even more choice for your interior - and lots more besides. See for yourself!

## The Classic door collection.

A selection of stylish doors for everyone who loves classic yet contemporary styles. Create additional accents with carefully selected doors.

# Collection Plus - greater choice, greater individuality.

Svedex Linea, Model AL 14 double groove LIN02

Would you like to have a door individually designed according to your wishes?

No problem for us, great added benefit for you, with Collection Plus. First select the Svedex door of your choice, then choose from four linear grooves, between two whites and an optional glass beading with natural wood grain. All for an affordable package price.

Have your package individually tailored at specialist outlets. You can find out which doors are eligible for Collection Plus at the outlets and in the catalogue.

## Choice of linear grooves.

The TREND style has an even greater variety of linear grooves: Connect, Linea and ViVa. And in the DESIGN style, E-Lite has been introduced.

Choose from **two different** linear grooves:

- Single groove LIN01
- Single contour 8 mm VLG03

Choose from **four different** linear grooves:

- Single groove LIN01
- Double groove LIN02
- Single contour 8 mm VLG03
- Double contour 8mm VLG04

## Colours.

The TREND, ELEGANT and DESIGN styles allow you to choose between White and Extra white.

## Glass beading.

Add a high contrast enhancement to doors with a glass beading in grey with natural wood grain. Choose from Connect and ViVa in the TREND style, or opt for whitewashed oak with E-Lite in the DESIGN style.

Detail double contour 8mm VLG04 (optional)

Find instead of looking.  
We have style assortments to  
**suit every taste.**

Svedex style doors follow one very simple principle: they are designed to emphasise and fit in with your interior design style. So that everyone can make an individual choice, we have developed three style assortments which in turn lead to extremely varied door collections, allowing everyone to find what they really want without spending an eternity searching for it. What do you think of that?

Svedex Character, Model CA10

**TREND**

Some trends come and go, and some persist and provide inspiration for years. With the TREND style assortment, we offer a choice of door collections to suit every interior décor style, all with one thing in common: they boast premium quality, making them durable as well as affordable. TREND style doors live your life with you; in the morning when you enter the bathroom, over breakfast in the kitchen and in the evening when you head for the living room to relax. They create atmosphere, encourage intimacy or are there just to be admired.

**ELEGANT**

Quality is always in fashion. If you have firm ideas about value and can't give yourself over to the latest trends, your demands will surely be reflected in our ELEGANT style assortment. Traditionally designed doors which add a timeless touch to home interiors where durability feels right at home. The three collections perfectly and elegantly unite a love of original things with a modern quality of life.

**DESIGN**

Design is the perfect marriage between form and function that answers questions of personal style. So if you're looking to express your individual taste with a certain esprit, you'll find an impressive array of ideas within our DESIGN range of style-inspired doors. No matter how different our DESIGN doors may look, they all boast the same level of quality.

>> More about Svedex: [www.svedex.com](http://www.svedex.com)

# TREND

A trend may excite just  
for a short time, or bring  
a lifetime of joy.

# Connect, ViVa and Linea.

The TREND style offers three independent door collections: Connect, ViVa and Linea. Each of these ranges is characterised by its unmistakable strength of character, affordable quality and no-frills design - the personalised answer to the question of taste.

Svedex Connect, Model CN05

## ViVa

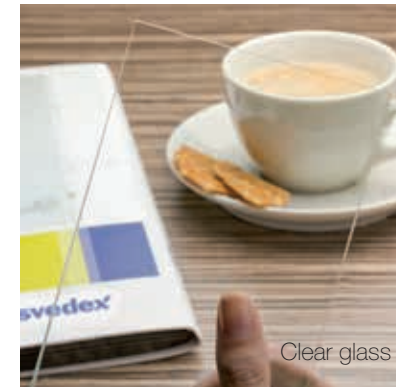

Straight lines and timeless design.

## Connect

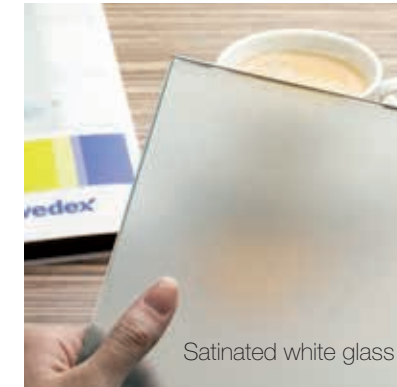

Modern variety for every day.

## Linea

In line with individuality.

Clear glass

Satinated white glass

## Like the view?

Create glass accents in your door to view your lifestyle in the right light. Choose from various types of glass for the panel that matches your individual style. All that's left for you to do is enjoy the finished product.

## Ultra-modern carpet tiles.

Floor design has become a highly creative discipline in interior design. And what could be more creative than combining individual tiles, such as the uniquely shaped BLOOM from the SCALE LIVING collection? Thanks to the self-adhesive backing, the individual 2d tiles can be simply and easily replaced and rearranged whenever you see fit.

>> [www.vorwerk-carpets.com](http://www.vorwerk-carpets.com)

## Combine as you please.

Carefully thought-out combinations guarantee exciting style in any living space. Let TREND style doors inspire you to combine. How about combining a glass table in your living room with a glass pane door?

CN01

CN50

AL84

## Playful stacking with fabric.

„Stuff“ by Studio Parade is a modular cupboard system with upholstered components covered in a variety of Kvadrat fabrics. The ultimate in flexibility, you can adjust the height, width and upholstery just as you like time and time again.

>> [www.spectrumdesign.nl](http://www.spectrumdesign.nl)

## TIP

## Mixing styles is increasingly popular.

The unobtrusive yet versatile design of the Linea range of doors allows you to completely redesign your interior. Mix up the styles in a room by placing furniture from different rooms together in new combinations, including old with new.

AL83

## Cute and cuddly.

An armchair that looks like a gummy bear. The inviting shape comes in fabric or leather covers in what are once again the most fashionable pastel shades: typical candy colours. The armchair has a matching pouffe.

>> [www.freistil-rolfbenz.com](http://www.freistil-rolfbenz.com)

## Collection Plus: Linear grooves, colour glass beading.

All Connect style doors are also available with a grey glass beading with natural wood grain.

CN05

Overview of Connect doors.

CN01  
glass

CN02  
glass

Connect - makes a thoroughly modern entrance with an assured sense of style.

What do you expect from a modern door? That it should offer quality and design and plenty of variations to match your décor? Then invite the Connect models into your home. They will blend perfectly with your style and harmoniously enrich your interior, because this collection brings together panels, glazing and linear design in a modern, attractive door. With the new Connect range of doors, we are making customers' dreams come true. Can we do the same for you?

# ViVa AllStar - A classic is admired, time and again.

Do you like the classics, but are not averse to contemporary settings? The ViVa AllStar range of doors fulfils this role to perfection. These are style doors with a classic linear design, but that provide a straight and modern match for any era, any interior décor and any budget. A range of doors to admire - time and again.

ViVa AllStar

ViVa dSign - A hint of cubism.  
For everyday art.

Do you prefer style above function in your décor? Do you think a door isn't something you should have to look at, whether it leads to the living room, a storage closet or the downstairs toilet? If so, the ViVa dSign design will lend your day-to-day life the style you want. It is comprised of shapes, a linear design and a perfect finish that guarantees lasting enjoyment thanks to the robust Superlak.

Svedex ViVa dSign, Model VV10 with grey glass beading and natural wood grain

Overview of ViVa dSign doors.

ViVa dSign

### Stay on track, even if that track bends.

The clean, bright, straight-lined appearance of the ViVa dSign style doors allows for more possibilities than you would believe. Combined with rounded shapes or structured surfaces, these doors open onto new dimensions in style, each and every day.

### Choice of line grooves.

Collection Plus allows you to determine the groove style - single or double. Long live the personal groove.

### Overview of ViVa dSign doors.

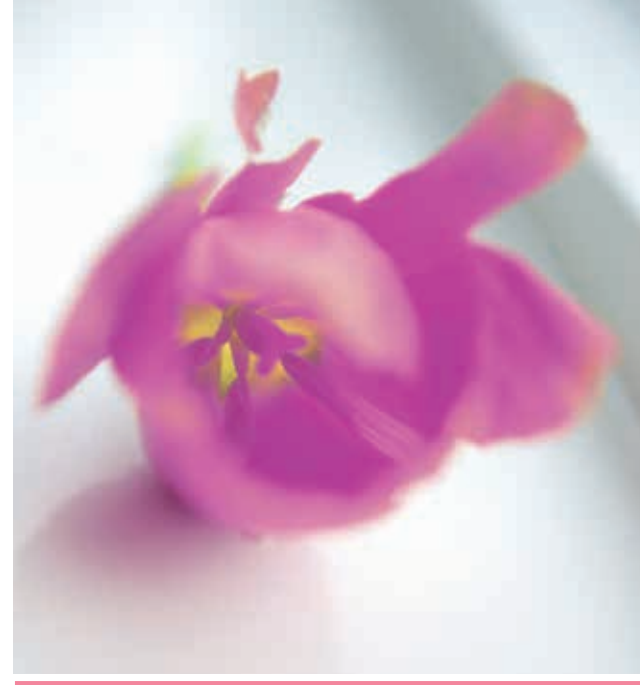

## Overview of ViVa dSign doors.

### Modern performance, for every day.

Modern design needs to be suitable for everyday use - or at least, that's our opinion - and resistant to everything. With the ViVa dSign style doors, it is the successful combination of design and manufacture that guarantees reliable functionality, day in and day out, with a finish that keeps these doors looking exceptionally cool for a very long time.

## Linea - A door like no other. If that's what you want.

Have you discovered the latest trend and a love for linear grooves in door leaves? But maybe you also want to retain a sense of your personality and ensure what you want is affordable? Congratulations! Linea is the door for you. Choose from a broad range of designs, and if you wish, we will make your door simply unmistakeable by using your own personal bar pattern.

>> Also available in Extra white.

Collection Plus: Choice of line grooves.

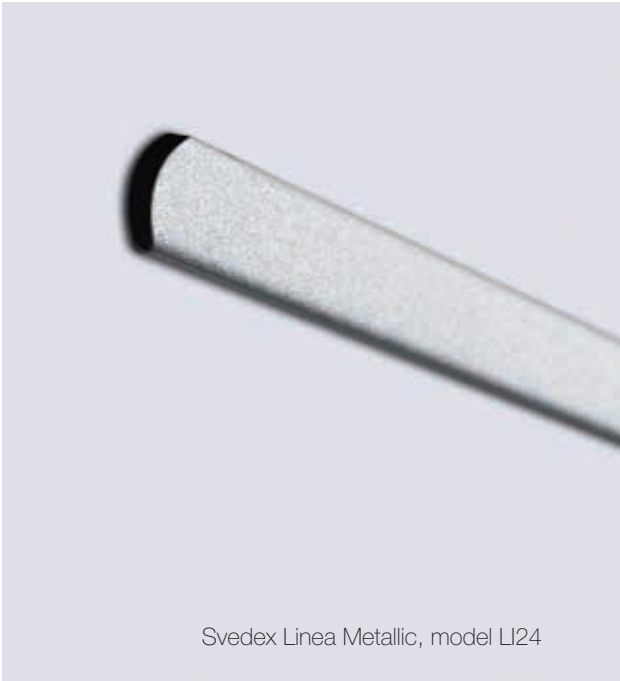

Collection Plus allows you to determine the groove style - single or double. Long live the personal groove.

Groove style

Make your life feel good.

The linear grooves on the Linea doors are seductive. You won't be able to help yourself from running your fingers along them and when you are sitting comfortably in a room, your eyes will be drawn to them. It's just a door, you will say. Or is a key element of the interior design? Give it a go. At home.

Overview of Linea Metallic doors.

Linea Metallic

# ELEGANT

Maintaining values is important,  
and it's wonderful when that  
happens with little effort.

# Classic, Cottage, Character.

The ELEGANT style is comprised of three collections that successfully combine a love of tradition with a modern quality of living: Classic, Cottage and Character. They meet the ideals of individuals not prepared to give themselves over to new trends. Plus, their special surface makes them easy to maintain.

Svedex Character, Model CA02

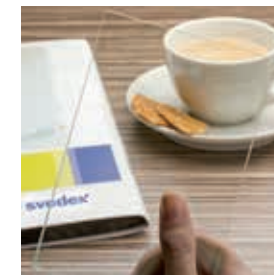

**Classic**  
Simply classic.

**Cottage**  
Modern love of the country.

**Character**  
Stylish and timeless.

NEW: Classic

## Types of glass for ELEGANT style doors.

Clear glass

Clear grey/bronze screen glass

Satinated white glass

ELEGANT glass panes set your life in the right light and define the ambience of your home in a truly individual way. Choose from a wide range of glass types.

## Stylishly antique.

The non-woven wallpaper collection Style Avenue brings together an antique style and an Asian feel. The collection has warm grey and beige shades with silver and gold ornaments, floral motifs and striped patterns, creating new classics with a hint of chic. >> <http://wallcoverings.bnint.com>

## Timelessly classic.

Bell Lights. Modern yet unconventional in both materials and design. For a surprisingly classic look. You can choose from three different lamp shades: green fabric, white plastic lacquering and copper wire. Each shade can be combined with the simple cylindrical fitting in either grey, brass or copper. Mix and match! >> [www.classicon.com](http://www.classicon.com)

CA18

CA17

## Combine as you please.

A classic accent in your interior requires a harmonious item. Our ELEGANT style, with the Classic, Cottage and Character door ranges, assists in your search for a stylistically confident dialogue. You will be surprised.

## TIP

### Furnish everything.

Finish it off. In the next decorative section you will find all the accessories you add the finishing touches to your Character door. How about using a milk urn as an umbrella stand, or a wicker basket for newspapers or a rustic storm lamp?

CA11

## Suitcase drawers.

The creative brain behind the amazing chest of drawers "A Pile of Suitcases" is the Belgian Maarten De Ceulaer. De Ceulaer created this chest of drawers by stacking leather suitcases of different sizes and different shades of green on top of one another. The result is an aesthetically pleasing look that is surprisingly practical to use. >> <http://www.maartendeceulaer.com>

## Natural elegance.

Strong shapes and subtle structures combine here to create an exciting wall covering. The Chacran collection offers varied and diverse patterns and shapes just like nature itself: romantic and soft, then erratic and strong. >> <http://wallcoverings.bnint.com>

## Invest in the value of Superlak.

The robust nature of Svedex Superlak provides our doors with a resistant surface that lasts for many years, while retaining its innate values. Plus, it is easy to maintain.

## Classic - First love. When you love things to be classic.

If your heart beats for a classic style of living that is contemporary and in keeping with your budget, you will love the Classic door collection. It brings with it everything that is representative of a classic stylish door and is also stylishly and lovingly in keeping with the here and now and your requirements. The start of a beautiful relationship.

>> Classic through and through. And truly individual, with a matching glass panel.

# Cottage - where is the cottage style at home? Even in the city.

Do you love original features and simple elegance and long to express your style wherever your home is? The Cottage doors collection opens up the opportunity to bring a little bit of country life into your own four walls, and at the same time, blow the wind of modernity into the atmosphere you create. Cottage doors provide a loving hint of what is hiding behind them.

# DESIGN

Design lives by form  
and function.  
And we live that to perfection.

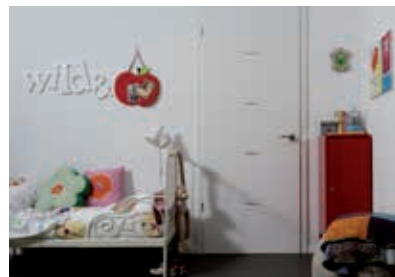

# E-Lite, Next, Living, Modis, Random.

A door is not just a door, and design is not just design. With the door ranges in the DESIGN style, we aim to prove that we are masters of distinctiveness at the highest level, with a design that meets all kinds of demands. The E-Lite, Next, Living, Modis and Random door ranges offer individual options in this respect.

## E-Lite

Elegant, pure and simple.

## Next

Performance across the board.

## Living

Beautiful and inspiring.

## Modis

For a personal profile.

## Random

Good design is not a coincidence.

## 3D-Design.

The new "Motion" collection decks walls in the very latest colours and patterns: intertwining lines, stripes and fancy partitioning of surfaces create playful perspectives in the space. The 3D effect is further enhanced by gravure and foam printing, as well as metal pigments that reflect the light.

>> [www.leolux.com](http://www.leolux.com)

## Details.

Detail contour 8 mm VLG03

Detail Model RD04

## Raise your glass to design.

Glass in the doors of the DESIGN style brings more light into your interior, and with it, greater esprit, because the play between light and shade changes the interior décor all day long. The many different glass types available make this effect even more varied.

## TIP

## Design and nature give ideas room to blossom.

The carefully thought-out linear designs of Design doors add sophisticated lines to interiors, while the shapes, colours and structures of plants give the space natural balance. Follow your instincts when adding design and nature, and give your ideas room to blossom. For a life filled with passion.

RD53

## Combine as you please.

You can introduce design accents into your home in all kinds of ways. What would we suggest? Combine the doors from the various DESIGN style collections just as you please, completely according to your taste. Impress yourself, and everyone else of course.

## A vase or a sculpture?

The Swing vases are truly unique: hand blown piece by piece by experienced glass blowers, each individual vase has its own entirely individual charm. The product of a classic traditional craft, these vases are timeless and trendy. In 8 contemporary colours and 3 sizes: 20, 30 and 40 cm. Grouped together, they create a truly 'swinging' ensemble.

>> [www.normann-copenhagen.com](http://www.normann-copenhagen.com)

## Beautiful minimalism.

The versatile NEO modular range is straight and linear, uncomplicated and state-of-the-art too. Whether you're sitting, lounging or relaxing – the NEO modular range comes in two seat depths and two seat heights, allowing for optimum individual comfort.

### Attention to detail.

In addition to the classic Svedex Superlak White, you can also opt for Extra white from the Living collection. If you like white, then this is for you.

### Colours.

All styles offer the choice between White and Extra white: TREND, ELEGANT and DESIGN.

Two shades  
of white

Living

# Modis - People need structures and relaxation.

Are you looking to reshape your life? Do you like things to be clearly structured, but not necessarily conventional? With the Modis range of doors, you can create your profile with a combination of narrow and wide contoured grooves, and win yourself envious looks from your visitors. The result is clear and distinct: a modern design at right angles, leaving plenty of scope for an individual finish. Totally relaxed.

\* Front and back of the door is different.

## Random - Symmetry isn't everything. In particular, it's not surprising.

Do you enjoy surprises? And are you open to innovations that could change your life? If so, welcome to the world of the Random doors collection, where being different is the thing, and there are often no right angles in the door design. But this is precisely what loosens up the symmetry of rooms and allows for new perspectives. The grooves or struts between the glass cut-outs appear to be placed at random, which is exactly the idea.

Svedex Random, Model RD54 and RD04

“At last, something different.”

If you hear yourself saying that, you simply must choose one of the Random models. Or you could make a random choice: simply close your eyes and point to one.

# Svedex.

More than just a door into your life.  
That's Svedex.

# Svedex Move.

Simply a great idea. With a double effect.

## Move sliding door systems - practical for any taste.

A nice addition to the world of sliding doors: the Freeline System Move operates with technical perfection and simple Elegance. That's because of the straight-lined aluminium rail, with an invisible rail mechanism that nevertheless effectively does what it needs to. Move is a sliding door system for all Svedex style doors, so you are free to pick whatever suits your taste.

A door from a  
**professional.**  
And advice is guaranteed.

## Our specialist retail partners - your first port of call.

Did you know that Svedex is only available from specialist retailers? And that by visiting them, you can experience the feel of many of our models in their displays from up close? Visit your specialist retailer to experience what professional advice really means, as well as professional installation, if you need it. You'd be well advised to give it a try.

## >> Linear varieties.

# The world of doors speaks its own language, and we have the translation.

Below are the key terms from the world of doors that will allow you to quickly grasp what's going on, as well as the most important Svedex symbols.

## Symbol indicating two linear varieties.

Doors with this symbol are available in two groove designs.

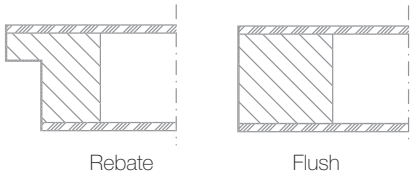

## Symbol indicating four linear varieties.

Doors with this symbol are available in four groove designs.

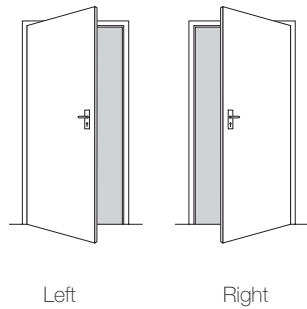

## Doors.

Svedex interior doors can be supplied in rebate or flush, with different door fillings.

## Door handing.

This term dictates to which side the door opens: left or right.

## Superlak.

All doors with this symbol are guaranteed to be finished with Svedex Superlak.

## Tempered glass.

Doors with glass elements which have this symbol are fitted with tempered glass.

## Signs of the times.

As an FSC- and PEFC-certified company, we take our raw materials from sustainable forestries. That may well cost more, but in our view it's the right thing to do.
